In an on-going effort to educate all parties involved in the professional boxing industry the ABC along with NAAG are proud to present the professional Boxer's Bill Of Rights.

All boxing commissions and other boxing personnel should make an effort to have this document distributed to all boxers. This document is not intended to be a complete description of the rules and regulations as it pertains to boxers. It is intended to give the boxers a clear and concise understanding of what their rights are under the federal laws and what questions they may want to ask or what concerns they may have before or after a boxing event.

The idea is to help boxers become more educated, especially about the two federal laws that have been passed. In this regard I do think this document is a good first step in the boxer's education process.
